PROJECT SUMMARY

AI-powered WhatsApp sales and customer engagement platform for telecom lead qualification. Includes inbound AI chatbot for lead qualification, broadcast capability for marketing campaigns, and automated staff alerts for hot leads. Estimated timeline: **4 weeks** from receipt of required client information and completion of Meta account verification.

Products supported: Fibre, LTE, Wireless, Starlink • **Lead data:** Google Sheets • **Staff alerts:** Brevo email integration

SETUP FEES (ONCE-OFF)

Inbound AI Lead Qualification Setup

R8,500.00

WhatsApp Business Account setup, phone verification, n8n workflow configuration, AI knowledge base for 4 product lines (Fibre/LTE/Wireless/Starlink), Google Sheets lead logging, Brevo email alert integration, testing and go-live

Broadcast Module Setup

R5,500.00

5 marketing message templates + Meta submission, Group A/B/C segmentation setup, n8n broadcast web interface for easy campaign sending, testing and approval follow-up

Total Setup Fees

R14,000.00

MONTHLY PLATFORM COSTS (PER MONTH)

All core platform accounts (Meta, DigitalOcean, Supabase, AI provider, Brevo) will be created in Shavs Telecommunications 24 PTY Ltd T/a Horizon Africa's name and billed directly to the client. OWD Solutions will handle setup, configuration, and administration. The monthly fee below is for optional support only.

SERVICE**MONTHLY
COST****Support & Maintenance (Optional)****R1,500.00**

Reasonable workflow changes, bug fixes, uptime monitoring, AI prompt tuning, template updates, monthly performance reports, and technical support. Includes up to 5 workflow modifications per month — additional changes billed at hourly rate.

Third-Party Services (Billed Directly by Providers):

DigitalOcean VPS: Recommended droplet plan for n8n + Chatwoot live chat hosting

Chatwoot Live Chat: Open-source, self-hosted on DigitalOcean VPS

Supabase Database: Free tier plan

Gemini 3.1 Flash AI: Pay-as-you-use AI token plan

Brevo Email Alerts: Free tier plan

WhatsApp Marketing Messages: Meta WhatsApp Business API pricing

Notes:

- All third-party accounts are created in Shavs Telecommunications 24 PTY Ltd T/a Horizon Africa's name and billed directly to the client
- OWD Solutions will provide full administrative access and handover documentation upon project completion
- Inbound service messages and AI replies within 24-hour window are **FREE**

PAYMENT TERMS**Setup Fee — 50% Upfront****R7,000.00**

Due upon acceptance of this quote to commence work

Setup Fee — 50% on Go-Live**R7,000.00**

Due when platform goes live

Monthly Support Fee (Optional)**R1,500 /
month**

Only applicable if support is taken. First month due on go-live, then monthly in advance. Can be cancelled with 30 days notice.

Payment Terms & Conditions:

- 50% upfront payment required to commence setup work
- Setup includes creating all required accounts in Shavs Telecommunications 24 PTY Ltd T/a Horizon Africa's name (Meta, DigitalOcean, Supabase, AI provider, Brevo)
- All third-party services are billed directly to the client by their respective providers
- Monthly support fee is optional and commences from go-live date only if support is taken
- 30 days written notice required to cancel monthly support
- 1-month warranty from go-live date covering bug fixes related to the original scope
- After the 1-month warranty period, any bug fixes, changes, additions, or troubleshooting will be quoted separately at an hourly rate
- OWD Solutions is not liable for business decisions made based on AI-generated responses. Product information accuracy is the responsibility of Shavs Telecommunications 24 PTY Ltd T/a

K.N

Horizon Africa

- WhatsApp marketing message costs are paid directly to Meta via your WhatsApp Business Account — not to OWD Solutions

WHAT'S INCLUDED

Inbound AI Lead Qualification

- AI-powered WhatsApp chatbot that answers product enquiries (Fibre, LTE, Wireless, Starlink)
- Automatic lead qualification — collects name, contact number, address, product interest, and service requirements
- Lead scoring (Hot/Warm/Cold) based on readiness to buy
- Instant email alerts to your sales team when a hot lead is detected
- Optional "speak to a human" chat handover via Chatwoot live chat dashboard
- Automatic lead logging to Google Sheets for CRM tracking
- 24/7 automated response — no staff required to handle initial enquiries

Broadcast Module

- Simple web interface to send broadcast messages to Group A, B, or C
- 5 pre-approved marketing templates (Meta approval required — 24-72 hours)
- Group segmentation by product, location, or customer type
- Full broadcast history and delivery tracking

Handover & Training

- 1-hour handover and training session included
- Workflow documentation and configuration overview
- Admin access transfer to all platform accounts

Ongoing Support (Optional)

- Up to 5 workflow modifications per month
- Bug fixes and uptime monitoring
- Monthly performance reports
- Template updates and Meta compliance management
- Additional changes beyond the included scope billed at hourly rate

Important Notes

Account Ownership: All required platform accounts (Meta Business Manager, WhatsApp Business API, DigitalOcean, Supabase, AI provider, Brevo) will be created and registered in Shavs Telecommunications 24 PTY Ltd T/a Horizon Africa's name. The client retains ownership and billing control. OWD Solutions will handle setup, configuration, and administration.

Broadcast Limits: New WhatsApp Business Accounts start at 250 contacts/day. Limits increase to 2,000 → 10,000 → 100,000+ based on message quality and volume over 2-4 months.

Message Quality: Meta monitors message quality. Low-quality messages (high blocks/reports) can result in account restrictions. Opt-in consent and unsubscribe handling are required.

PAYMENT DETAILS

Bank: Nedbank
